

Igniting Positive Change

MORE POWERFUL & PRODUCTIVE CONVERSATIONS WITH YOUR CHILDREN

Are your kids not listening to you, arguing with you, not talking to you, fighting with you?

- Do you want a better connection with the kids?
- Do you want to have more meaningful, fun conversations?
- Would you like more positive influence?

Come join our parent night and learn how to have more powerful conversations with your children. How great would it be if you could co-create a better future WITH your kids? What if you could have conversations that brought out your shared purpose as a family, connected to each other's strengths, and bring forward a new vision of the future?

Learn about "positive framing" and "generative questions", two techniques that will change the conversations and relationship you have with your children. This will not be a typical passive event where you sit in the audience and listen while we stand in front of the room and explain the techniques. You will be participating in exercises that are positively framed and asked to have conversations around generative questions. We find that experiencing what we are talking about is much more effective and allows you to incorporate this into your family life faster and more naturally.

We will also be sampling an emotional intelligence card game that you can start to consider playing with your children to develop their Emotional IQ and your understanding of each other's emotional make-up.

"This is not a Union School District sponsored event."

Monday, January 14, 2019

6:30PM – 8:30PM

(Arrive by 6:20 so we can start ontime)

Location:

Corinthian Grand Ballroom – Upstairs Parlor
196 North 3rd Street
San Jose, CA 95112
