Homeroom Summer Project Outline

6th grade is full of unique, diverse individuals. To celebrate this individuality, each student is responsible for creating a poster that is “All About Me.” This poster will be displayed in the classroom so that we can all appreciate what makes this student so special.

Although this is a time for the student’s individuality to shine, there are a few requirements. Each student should include a self-portrait (photo or drawing), a “Favorites” section (passions/hobbies), and a “Family” section (descriptions and photos of family members and pets.) If you are worried about family/friend photos being destroyed, just tape them on poster with scotch tape for easy removal.

The poster should also be colorful, full of pictures/drawings and have captions for the pictures/drawings.

The guidelines are intentionally vague so that the student can have the freedom to fill the poster with their own lives and interests.

This project is due on the first day of school.

(This project is flexible for a reason as will the grading be. Hence, no rubric will be provided.)

DON'T FORGET TO HAVE FUN WITH THIS PROJECT!
