### INTRODUCING - FUTURE READY PA INDEX

In looking at ways to create a more holistic school evaluation tool, the Pennsylvania Department of Education (PDE) conducted dozens of feedback sessions to solicit recommendations from more than 1,000 stakeholders around a new measure.

The Future Ready PA Index will serve as Pennsylvania's one-stop location for comprehensive information about school success, and will use a dashboard model to highlight how schools are performing and making progress on multiple indicators.

The dashboard approach to school reporting:

- Increases emphasis on student growth measures, which incentivizes a focus on all learners and is less sensitive to demographic variables.
- Measures English language acquisition among ELL students, not simply performance on a test of grade level ELA standards.
- Incentivizes career awareness instruction beginning at the elementary level.
- Addresses the issue of unequal weighting of content areas in the current SPP.
- Provides indicators of student success after graduation.
- Increases the emphasis on student access to course offerings such as AP, IB, college credit, and CTE programs of study.
- Allows LEAs to include locally-selected reading assessments (Grade 3) and math assessments (Grade 7) as additional snapshots of student progress.
- Incentivizes schools to offer career pathways that culminate with high value, industry recognized credentials.

Please take a few minutes to watch the brief videos provided below by the Pennsylvania Department of Education (PDE). This video provides a snapshot of the "new" way that PDE will showcase student / school district achievement.
