Counseling Corner

- This school year the students will have an opportunity each month to work on mindfulness, and how to implement mindfulness into different aspects of their lives.
- This month we are focusing on growth mindset:
- According to brain-based research, the brain is constantly creating and destroying, neural patterns out brain uses to make decisions, choose actions, and present us to the outside world. The pathways that are used get stronger and those that are under-used get weak and are eventually replaced. Having a growth mindset will help exercise your brain, keep it active and open minded. With proper stimuli and practice your brain strengthens and builds intelligence.

Community Opportunity

- Why are depression, anxiety and suicide increasing in our society? Why do the kids of today have difficulty socializing? Why is bullying so damaging today? Why do certain video games increase aggression? Today's electronic world of social media, text messaging, video games and snapchatting is neurologically changing kids' brains.
- Dr. Kane will provide tools to deal with these issues.
 - For a short preview of the meeting content go to: <http://bit.ly/DrKanePreview>
 - Panel Discussion, September 13, 2018 7:00 pm, Lone Peak HS Auditorium
Dr. Christy Kane, Wayne Sears – LPHS Counselor, Brian Gwilliam – LP Police Chief
And Reed Thompson – LP Fire Chief
