March 12, 2020

Dear Mater Dei Prep Families:

Due to the COVID-19 pandemic and CDC recommendations any students and faculty that attended the Florida/Disney trip will be requested to not return to Mater Dei Prep until March 30th. As recommended, these individuals need to self-monitor at home and avoid contact with others from the Mater Dei Prep community for 14 days post return from travel. As always, seek medical care immediately if symptoms arise. On-line learning will be available to these students for continuance of their academic program. Also, the students and faculty will not be permitted to attend any extra-curricular activities including athletics and performing arts for 14 days post return.

Returning students and faculty members may have siblings and family members in our school community. Therefore, these members will also be asked to not return to school or attend any extra-curricular activities for 14 days post return and follow the guidelines established by the CDC, unless there are opportunities for family members to reside separately and avoid possible contact.

While we regret having to take this action, our priority is the safety and health of all our students, families, and staff. The Board of Trustees and the COVID-19 Task Force are grateful for your understanding and support during these challenging times. Please do not hesitate to contact us with any questions and concerns.

Sincerely,

Ms. Michele Wood-Petry RN
