

MEAL SYSTEM - Reminders for Parents and Students for School Year 2018-2019

Roosevelt High School uses a point of sale system, eTriton, for our meal service. The system applies to all students (free/reduced/regular). Students deposit money into their individual accounts and eTriton deducts the proper monetary amount.

Deposits

- Payment envelopes are required for deposits made in the Main Office. Deposits in the Main Office are CASH only. Checks will not be accepted. Submit envelopes in the deposit slot located under the front counter of the Main Office.
- Deposits will be accepted Monday thru Friday during non-instructional time.
- For same day use of funds for lunch, deposits must be made by morning recess.
- Deposits can also be made online at www.EZSchoolPay.com.

Meal Prices

Breakfast

Regular	\$1.10
Reduced	\$0.30
Second & subsequent breakfast	\$2.40
Adult	\$2.40

Lunch

Regular	\$2.75
Reduced	\$0.40
Second & subsequent lunch	\$5.50
Adult	\$5.50

Our school implemented a biometric finger scanning identification system in an effort to provide accurate student identification as well as security for our student meal accounts. We wanted to eliminate clerical errors and provide an easy and accurate way to identify students and to ensure that no one else could charge items to their accounts.

What is Biometric Identification?

Biometric identification is an automated method of identifying a person based upon physical or behavioral characteristics. Our school has selected the identiMetrics Biometric Finger Scanning Identification System because it is secure, accurate, cost-effective and non-intrusive.

How does finger scanning identification work?

Using a finger scanner, the software scans certain unique points on the finger to create and store individual templates that identify each student. When the student returns, the software again scans the finger and looks for a match in the database. When a match is found, the student is identified.

What about our students' privacy?

We are not fingerprinting the students. The software scans the finger for identification. It does not store a copy of the fingerprints. Instead, the software creates a template of the unique points on the finger. The template is converted to a unique number and is stored in the school's database with the same high level of security of all of our records. The templates are also protected by the Family Educational Rights and Privacy Act (FERPA). FERPA is the same Federal Law that protects all student records. When your child graduates or is no longer enrolled in the school system, the templates are deleted. At no time is a fingerprint image stored. **No fingerprints can be recreated or delivered to any agency - governmental or otherwise.**

This institution is an equal opportunity provider.
