Please turn in to the Student Suite. This does not take place of the online application. You must also complete the online Google form to be considered for Art.

The hands on portion of this application is to provide a way for students to demonstrate their current understanding and interest in growing as a visual artist. By taking on these tasks you are putting forth extra effort to show both your interest in the course and commitment to grow as an artist. Your answers/artwork do not affect your placement in 6th Grade Visual Art, but serve as a marker of your investment and interest in joining 6th Grade Art, and are used to provide visual feedback on your knowledge, understanding, and aptitude of artistic concepts from 5th Grade.
