Dear Macroeconomics students,

Attached is the summer work for our class. The intent of this assignment is to introduce you to the very basic concepts of economics. Please understand that this assignment should not take you more than 2-3 hours, but completion of the work will give you the basic foundations of our class. Please follow the instructions carefully, and respond to each section thoroughly, with well-prepared answers. Make sure to *type* your written responses, but *hand draw*, the PPC. To assist you in completing this assignment, you will find the powerpoint slides for much of Unit 1 for our class, a textbook is NOT necessary. If there are any terms you cannot find, please visit [www.investopedia.com](http://www.investopedia.com).

Throughout the semester, we will be watching ACDC (no, not the rock group) videos produced by a former AP Macro/Micro teacher, and everything economics “guru”, Jacob Clifford. He is a well-respected resource in the AP community and his videos (and review material) are priceless. If you need a short, sweet, explanation of a concept of the summer work please search on Youtube: ACDC Macroeconomics Unit 1. I cannot stress how important Mr. Clifford will be to our class.

Please know that this work will be collected, via my school email kendragyepes@ccusd.org, on the date of your Senior Registration (August 6, 2020). Summer Work will not be accepted during Late Registration. There will be an assessment on the Summer Work within 5-7 days upon return from summer/winter break (depending on when you are scheduled). As all of us know, much information about school, and how things will look, are still undetermined. All I know is that I am VERY excited to get back into my classroom with students inside! If you have any questions or concerns please email me at: kendragyepes@ccusd.org. I will be checking my email throughout the summer. I’m looking forward to seeing you in the fall or spring!

Sincerely,

Kendra Gyepes
