

**Remembering Diane Campbell,
Much-loved Alhambra High Teacher**

By Kevin Tong

June 5, 2019, Alhambra, CA — As a beloved member of the Alhambra High School faculty for 14 years, Diane Campbell spent many of her hours at school planning the next math lesson, quiz or test. She was always one of the last teachers — often the last — on campus during the evening hours. Her copper-colored Toyota Camry would be sitting in the parking structure patiently waiting for her. Returning to work on Saturdays, she always wanted to make sure her lessons were just right. Her husband once remarked that he was thankful for the rule on the Alhambra campus that closing time on Saturday was at 1:00pm! Her dedication to her craft truly demonstrated the love she had for people. Diane tirelessly worked to make those around her well cared for.

In recognition of the countless students she helped and her commitment to the teaching profession, Diane was posthumously awarded the Alhambra High School Teacher of the Year. Diane will be sorely missed.
