Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of the changes your LEA has put in place. LEAs are strongly encouraged to provide descriptions that do not exceed 300 words.

Provide an overview explaining the changes to program offerings that the LEA has made in response to school closures to address the COVID-19 emergency and the major impacts of the closures on students and families.

The Fruitvale School District closed school effective March 17 and students began with 2 weeks of learning packets that week. By March 23, the first of three rounds of chromebooks were distributed, for a total of over 1100 chromebooks, with a limit of 2 per family. Teachers at all grade levels, Preschool-8th grade utilized Google Classroom, Google Meet and Zoom to connect and provide bi-weekly content to students and in the beginning, over 60% of students were making contact on a regular basis. Special Education, including speech, counseling and OT have maintained small group and 1-1 contact with students with appropriate lessons. Meals (breakfast and lunch) have been provided at all four elementary school sites since school has been closed. The District Office has maintained office hours every Tuesday and Thursday. The district website is ADA certified and has been improved to provide access for all stakeholders with questions regarding schedules and resources during the COVID-19 closure, including step by step instructions for accessing the district approved learning sites. Refunds were distributed for all students not utilizing the district extended day care.

Provide a description of how the LEA is meeting the needs of its English learners, foster youth and low-income students.

The Fruitvale School District is providing chromebooks and meals to all students in the district, with no regard to their eligibility. Students without connectivity have been offered hotspots and internet capability at each of the school site parking lots. Teachers and Principals have provided personal phone to students who have not connected on line and additional packets have been available to any student who requests. A survey was developed and distributed to parents regarding their needs for support during school closure time. Meals, packets, and chromebooks have been delivered to those without transportation. Spanish versions of all packets have been included and an interpreter has been available to return calls when necessary.

Provide a description of the steps that have been taken by the LEA to continue delivering high-quality distance learning opportunities.

The Fruitvale School District is continuing to deliver high-quality education through a variety of instructional modes. Teachers meet with students through create weekly packets that meet the state standards for the individual grade levels. These packets are picked up each Monday and returned the following Monday. Teachers have created a tutoring schedule to support students as they complete their daily work.
Provide a description of the steps that have been taken by the LEA to provide school meals while maintaining social distancing practices.

Meals (breakfast and lunch) were provided for all students and their age eligible family members at each of the four elementary sites on a daily basis for the duration of the school year. School cafeteria employees and other volunteer employees provided grab-n-go while maintaining social distancing during preparation and distribution of food. All employees and volunteers wore masks and gloves at all times.

Provide a description of the steps that have been taken by the LEA to arrange for supervision of students during ordinary school hours.

The Fruitvale School District distributed a survey to all parents regarding the supervision of their children during ordinary school hours. The survey indicated that parents were not interested in service for day care at that time. Our parents generally were hesitant to send children into a daycare environment because of their concerns about COVID-19 exposure. Additionally many family members were home due to the stay at home orders related to social distancing and had at least one adult to supervise students.
