

Carlisle CSD Guidelines for Travel, Self-Quarantine Advised as Precaution for COVID-19

The Carlisle School District continues to closely monitor the potential impact of Coronavirus (COVID-19) on the school community. The district has not experienced any active cases of COVID-19.

As Spring Break draws near, we are asking all Carlisle CSD students, families, and staff to take extra precautions when traveling. The Centers for Disease Control and Prevention's travel guidelines provide country-specific information at the [Coronavirus Disease 2019 Information for Travel website](#). The Iowa Department of Public Health (IDPH) recommends that anyone who visits those countries voluntarily self-isolate for 14 days upon their return.

Staff and students returning from countries identified in the CDC's travel warnings should notify their school and self-quarantine at home for a period of 14 days, returning only when symptom-free. Families should notify their school to make arrangements for the student's reentry to school. In addition, families who visit any destination the CDC has identified as high risk for Coronavirus should follow its [public health recommendations](#). Absences for these students will be marked excused. Staff members who self-quarantine will need to follow normal absence reporting procedures.

Keeping our school community healthy is of the utmost importance so that productive instruction can continue. For ongoing updates and info visit our [website](#).
