Dear CECCR School Community,

Based on the most recent data from local health experts and your voice, via the survey sent to the CEC school community, CEC Castle Rock (CECCR) is planning on welcoming students back to an “as close to normal as possible” classroom experience in August. The “as close to normal as possible” designation means that this fall semester, we are planning to offer traditional in-person learning, but with a variety of modifications to maintain school health and safety and to comply with state and local health guidance. Although we are very excited to begin our school’s journey with in-person instruction, we will be taking necessary precautionary measures to keep our entire school community healthy and safe.

In preparation for the 2020-21 school year, it is only prudent for CECCR to develop detailed contingency plans for multiple educational scenarios (In-Person Learning, Blended Learning, and Remote Learning). Although our current plan is to begin with full-time in-person instruction, we will have the ability to pivot into blended or remote learning based on future public health guidance changes. Ultimately, our goal is to execute on a plan that prioritizes our entire school community's health and safety while enabling our student body to pursue academic excellence.

To serve the needs of all of our students and families, we plan to offer a robust, comprehensive, fully remote learning option to our students as an alternative to in-person learning for families who prefer their student(s) to continue learning remotely. In the coming weeks, we will be contacting all enrolled students and families to clarify which program each family would like their student(s) to participate in.

Lastly, as you all know, things are bound to change in the coming weeks, but take comfort knowing that the CEC Castle Rock leadership team will continue monitoring all future health guidance. We understand that there are many unanswered questions regarding the logistics of in-person instruction, so please stay abreast as we will be sending out additional information in the coming weeks with details about the learning environment at the Castle Rock campus.

Thank you for your patience, support, and understanding during this planning process.

Sincerely,

Cory Harbor, MBA
CECCR Head of School
