

Nampa School District
Nutrition Services Food Products Bid Spring 2016
Question & Answer

In the interest of fairness and transparency, we ask that all questions regarding Nutrition Bids be submitted via email to mforeman@nsd131.org. We will post all questions and answers to the Bids/Purchasing page via this Q&A sheet. The Q&A will be updated as we field questions and are able to provide appropriate responses.

1

Q: Would it be possible to get the bid deadline extended, due to the tight bidding window and potential issues getting pricing back from manufacturers? Is the bid available in Excel format?

A: In order:

Given that the bid date has been published publicly, changing the bid date would seem difficult at this point. We also have some internal deadlines to meet, so moving the deadline back would likely cause us to delay award consideration and trustee approval until the January meeting. While we reserve the right to delay the deadline should circumstances dictate such, we intend to stay with the currently-published deadline of November 23.

The software we use (at least the version we use) does not have an Excel export utility, so we are unable to provide an Excel copy at this time. The pdf file is not editable as posted on the website, but you may be able to save the file to your own desktop and open it as an editable file, depending on your particular version of Adobe and its settings.
