

Lakeview Elementary School

IMPORTANT DATES

- 14 Winter Family Art Night
- 18 Winter Program: First Grade Performs
- 21 Winter Break Begins
- 1/7 School Resumes

Dear Lakeview Parents,

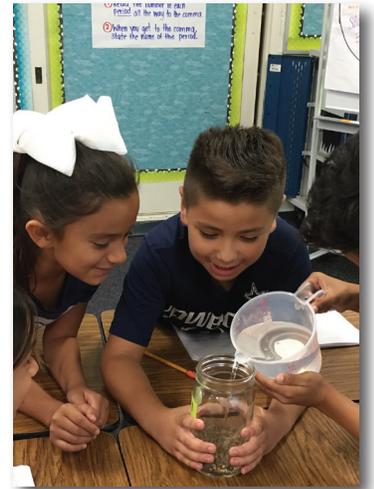

Science, Technology, Engineering, Arts and Math are an integral part of the educational experience of Lakeview students. On alternating Fridays, students receive instruction in art, music and technology. During their technology rotations, students utilize chrome books to conduct research and create projects. In their classrooms, Lakeview students have been actively working on engineering projects that allow them to explore their understanding of math and science concepts. Through the integration of Science, Technology, Engineering, Arts and Math, Lakeview students are being prepared each day to become college- and career-ready citizens who will be able to actively participate in our ever changing, global society.

As we approach the end the year, there are many things to celebrate at Lakeview! As part of our district's gratitude months, students and staff were encouraged to spend time showing gratitude for the people for which they were grateful. "I am grateful for....." statements were shared with the school community during our morning announcements.

Lakeview continued

to celebrate student accomplishments through our trimester awards assemblies, where students were recognized and awarded for academic achievements, perfect attendance and demonstrating R.O.A.R. expectations. As a school community, we will continue to celebrate and build upon the successes and improvements of one another. GO LIONS!

I am so proud and excited to serve as the principal of our school and a member of the Lakeview family. As principal, I will continue working alongside the staff, parents and community in building on the successes of Lakeview. On behalf of the Lakeview family, I hope you have a happy holiday season!

Yours,
Principal Williams
