Biology B (10 day Lesson Plan)- Ecology

Day 1
Students will read Ecology Study Relationships (13.1)
Students will answer questions 1-5 on page 400

Day 2
Students will read Biotic and Abiotic Factors (13.2)
Students will answer questions 1-5 on page 404

Day 3
Students will read Energy in Ecosystems (13.3)
Students will answer questions 1-5 on page 407

Day 4
Students will read Food Chains and Food Webs (13.4)
Students will answer questions 1-5 on page 411

Day 5
Students will read Cycling of Matter (13.5)
Students will answer questions 1-5 on page 416

Day 6
Students will read Pyramid Models (13.6)
Students will answer questions 1-5 on page 419

Day 7
Students will do Chapter 13 (Principles of Ecology) Assessment Questions

Day 8
Students will answer questions 1-5 on page 423
Students will do Chapter 13 (Principles of Ecology) Assessment Questions
Students will answer questions 6-10 on page 423

Day 9
Students will do Chapter 13 (Principles of Ecology) Assessment Questions
Students will answer questions 11-15 on page 423

Day 10
Students will do Chapter 13 (Principles of Ecology) Assessment Questions
Students will answer questions 16-20 on page 423
