

Tips to Access Accelerated Reader

HELP! I'm having trouble logging into AR!

To access Accelerated Reader, be sure you access OUR site. You cannot Google it and get to the right place. To get to our site:

Go to the Cedar Ridge website, crm.dcs.edu

At the top of the page, hover over "Parents and Students" and click on the link to "Take an AR Test." Your username is your first and last name without a space, and your password is your lunch number.

If you are having trouble with your username or password, here are a few tips you can try.

- If you have a double last name, try both names. Do NOT put a space between the two last names, but DO use a hyphen if you have one between the two names.
- If your lunch number is only three or four numbers long, do NOT use the zeroes at the beginning.
- If you are still having trouble, email Mrs. Glenn at tracy.glenn@dcs.edu. She will check her email once a day, and she'll get back to you as soon as she sees the email.

Help! I need more books to read over the break.

We have access to over 3,000 e-books on the following website:

www.mycapstonelibrary.com

username: capstonewinter

password: lovetoread

Many of the books on this site DO have an AR test, so don't forget to take the test after you read the book.

If you have a public library card, you can also go there to check out books or access their e-books from the public library website. <http://mydpl.org/>
Look for Camellia Net down at the bottom of the page under e-books.
