July 1, 2018

Dear Faculty, Staff and Parents:

The Asbestos Hazard Emergency Response Act (AHERA) requires the school to notify the Faculty, Staff and Parents of the presence and status of asbestos-containing materials in our school buildings. The law further requires a management plan based upon the finds of the initial inspection.

We have completed the required six months surveillance on June 30, 2018 and will complete the next surveillance on December of 2018.

The results of the recently completed surveillance indicate that there is no change in the conditions of the asbestos-containing materials in our school.

A copy of the inspection report and the asbestos management plan is available for your review in our office during business hours or at the Department of Education, Office of School Facilities and Support Services, Environmental Services Unit. Please contact Gary Bignami, Program Specialist, at 377-8301 for additional information.

Sincerely,

A handwritten signature in cursive script that reads "Audrey Chinen".

Audrey Chinen
TA Vice-Principal
