

Marina High School

School Site Council

Meeting Dates 2018 – 2019

The school site council is a group of teachers, parents, classified employees, and students that works with the principal to develop, review and evaluate school improvement programs and categorical school budgets. The exact duties of school site councils vary between districts and schools, but site councils generally advise the principal on the school budget and the academic or school improvement plan. All meetings are held in the Viking Conference Room at 3:15pm. The VCR is located in the administration building. All guests on campus must check in with reception for a parking pass and visitor badge.
