2018-19 School Profile

Mission & Student Demographics

Cristo Rey San José (CRSJ) is a Jesuit, Catholic high school that empowers students from underserved communities in San José to be men and women for others who are prepared spiritually, academically, and professionally to complete college and who will become accomplished leaders committed to a lifelong pursuit of learning, faith, and justice. All CRSJ students come from low-income families. Over 70% of the school population is eligible for the Free or Reduced Lunch Program. The high cost of housing in the Bay Area distorts household income relative to national averages.

Total Enrollment: 451	Male: 207 (46%)	Female: 244 (54%)
Ethnicity:	Latinx / Hispanic: 423 (94%)	Other: 28 (6%)

The Corporate Work Study Program

As part of the Cristo Rey Network, CRSJ students participate in a Corporate Work Study Program (CWSP). Student go to work 5 days each month during the school year to help cover the cost of their college prep education. As a result, students typically have 4 days of classes per week, and most will graduate with over 1,000 hours of work experience.

Sample of Corporate Partners: PWC, Hewlett Packard, Cisco Systems, Microsoft, Google, Stanford School of Medicine, Santa Clara University, Jones Day, Kaiser Permanente, Palo Alto Medical Foundation, Silicon Valley Bank, EY (Ernst & Young), The Tech Museum of Innovation, Stryker Neurovascular, DEVCON Construction, Hensel Phelps Construction, City of San Jose

Academic & Professional Foundations

Incoming Cristo Rey Students participate in a 5-week Summer Bridge program. Students are typically assessed at entry as being one or two years below grade level in English and Math skills. Summer classes address academic proficiency issues and train students with the skills necessary for Corporate Work Study assignments, including professional etiquette and Microsoft Office.

Blended Learning

Cristo Rey’s academic model uses cutting edge technology to adapt to individual student needs. All students are pushed to a rigorous college prep experience. Classes utilize Chromebooks and online technology to aid instruction. Blended learning programs guide remedial instruction allowing teachers to focus on the development of critical thinking skills.
