Ashley Jiménez is a stellar student of World Studies. She is attentive, intellectually curious and hard working. The work that she completes for class is invariably of the highest quality. She takes time to thoughtfully and thoroughly process through the course content that is presented and always demonstrates a high level of mastery. I have frequently used her work as exemplars for other students. In addition, her attitude and disposition in class is always cooperative and pleasant. Her presence has contributed to the positive environment in our classroom.
