There are a few different pieces of information under the **Registration** column:

- f. **Registration Closed:** The deadline for registering and dropping registrations has passed. This Registration Deadline setting is set by Administrators.
- g. **Drop Registration:** This allows the students to drop this registration. The Drop Registration link only appears for the registrations that the student has created.
- h. **Registered by teacher/counselor:** The registration was created by a Teacher, Counselor, or Admin and the student cannot drop the registration.
- i. **Register:** The session is available to the student and they are able to register themselves into this session.
- j. **Full:** All seats have been filled and the session is considered full.

When a student finds a session they are interested in registering to, they will click on the **Register** link for that session. This will present them with a popup for them to enter a comment. This comment is optional and will be the reason they are registering/interested in the session. It will be visible for the teacher hosting the session to help them better prepare for the material taught.
