

Dear Parents:

Thank you for your ongoing commitment to Thrive! As we all know, the last few days have been challenging, but I've never been more encouraged in our mission thanks to the outpouring of support we've received from parents, students and the broader community. You give us the strength each and every day to fight for this education community that we truly built together.

We know last week's events bring some uncertainty and we greatly appreciate your patience as we quickly identify a path forward. We remain committed to ensuring your children continue to receive the quality, innovative education they deserve, whether at Thrive or somewhere else, so I wanted to share some steps that we are pursuing.

1. We are studying legal options to continue operating Thrive into the future. There may be several opportunities for us to remedy the injustices served our community through the courts, which could potentially allow us to continue operating into next school year and beyond.

2. We are exploring potential options to continue serving students at our campuses. Thrive leaders are working with other local organizations and community groups to explore possibilities for our students to continue receiving quality education at our current facilities.

3. We want to support Thrive families as they explore back-up plans. We know it's always smart to have a back-up plan and want to be totally supportive of our families as they explore their options. We will be holding an enrollment fair with trusted schools in the next few weeks. **Stay tuned for details. Even if you choose to enroll in another school as a back up plan, we hope you will ultimately choose to stay at Thrive now and in the fall.** Parents can always change their minds after signing up for another school. Within the next few days we will be sending out a link where you can indicate your interest in re-enrolling with Thrive.

Things are moving fast and we hope to have more details for you in the next few weeks. In the meantime, please feel free to reach out to me or any members of our team with questions or feedback. Thanks for hanging in there with us.

In community,

Nicole Assisi
CEO
