

PEACHJAR MULTIPLE SCHOOL ACCOUNTS

These are accounts intended for use by parent and student volunteers of school related groups, activities, clubs, teams, etc. These account logins allow you to send to more than one school (if you have a team car wash and you want to invite the whole district, for instance.)

If you want to send only to your child's school, please create your own account and then contact Kellie Brosamer to have your account enabled to send flyers (if you are a PTO volunteer who only wants to send to your elementary school, for instance):

Please note—if you are a parent who owns a local business that you want to publicize, you must create a program provider (paid) account to send out flyers. These accounts are only for non-profit, school related volunteer activities. Businesses who sponsor fundraisers for individual schools should work with the PTOs or booster organizations at that school to upload flyers.
