Over the years, faculty, staff, students and their families at Westfield High School have suffered serious illness or death of an immediate family member or extraordinary and unexpected financial expenses. These difficult times can result in financial hardship for families. The Westfield High School Helping Hands (WHSHH) fund was established, in 2012, out of a desire to help ease the financial burden placed on families during those stressful times.

Since WHSHH's inception in 2012, WHSHH has distributed \$37,500 to over 40 families. Direct donations are critical to this fund's existence. Donations directly impact the lives of families within the Westfield High School community.

A WHSHH board, which includes faculty, staff, and parents, ensures the funds are thoughtfully and prudently distributed to individuals whose financial needs are not capable of being met from, other sources. They also carefully maintain the fund so that the fund will not be exhausted.
