## CLASS DESCRIPTIONS

**Advanced Robotics (3-5)** - Students will refine their skills in building Lego robots and learn advanced programming. *Note: Students should only enroll in this camp session if they know basic programming using Mindstorms and HAVE previously participated in a NXT or EV3 robotics class/club/camp.*

**Beginner Robotics (3-5)** - Students will be introduced to the basics of building Lego NXT robots and basic programming using Mindstorms.

**Creating Art (2-6) (AM ONLY)** - Student artists, who have completed grades 1-5, will explore and experiment with fun new processes to create original works of art using watercolor, chalk pastel, markers, paint, cut paper, printmaking, sculpture, and more!

**Game Design (3-5)** - Interested in game creation? Students will delve into game design programs to bring ideas to life, such as Scratch. This camp is perfect for creative students just beginning to discover the power of technology and students interested in game design.

**Introduction to 3D Drawing (3-5)** - Take drawing to the next level and be introduced to the world of 3D spaces. Students will create 3D architecture scenes in the same program that many professional architects use and then dabble in 3D drawing iPad apps that allow their creativity to go wild!

**Lego Movie Making (3-5)** - Lights! Camera! Legos! Come learn how to make your own stop animation movie with Legos. Create your storyboard, build your sets, and film the action. The last day culminates with a Hollywood like movie screening complete with the red carpet and paparazzi.

**Little Inventors (1-2)** - Do you like creating, designing and building? In this camp, we will explore science, technology, engineering and math skills to build and test products. We will also build robots to program with Lego WeDo!

**Mad Scientists (3-5)** - Do you love inventing gadgets? Do you like taking things apart just to see how they work? Have you ever made a banana piano? Do you eat, breathe, and sleep technology? If so, this camp is for you!

**WeDo Robotics (1-2)** - Robotics for 1st and 2nd graders! We will utilize the WeDo Lego Robotics kits in this fun and educational camp that will teach your child how to build robots, program, and work as a team to accomplish a task.
