School Accountability Report Card

Reported Using Data from the 2017-18 School Year

Published During 2018-19

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

CAASPP Test Results in English Language Arts/Literacy (ELA) and Mathematics for All Students Grades Three through Eight and Grade Eleven

Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	2016-17	2017-18	2016-17	2017-18	2016-17	2017-18
English Language Arts/Literacy (grades 3-8 and 11)	69.0	74.0	73.0	74.0	48.0	50.0
Mathematics (grades 3-8 and 11)	62.0	61.0	65.0	69.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in ELA by Student Group Grades Three through Eight and Grade Eleven (School Year 2017-18)

Students with Disabilities	29	28	96.55	42.86

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

School Safety Plan (School Year 2018-19)

The Redondo Beach Unified School District has developed Comprehensive School Safety Plans and coordinated school crisis response procedures in partnership with law enforcement and emergency response organizations. The comprehensive School Safety Plans meet the requirements of the annual Safety Plan Process under California SB 187. As stated in SB187, school safety plans are updated annually with participation from staff and additional stakeholders in a School Site Council.

District schools have also developed a “Grab and Go” guide to supplement the Comprehensive School Safety Plans. The Grab and Go guide details teacher and staff procedures in an actual emergency, in addition to site emergency response teams.

Professional Development (Most Recent Three Years)

The Redondo Beach Unified School District is focusing staff professional development (PD) in three main areas: effective instructional strategies aligned to California State Standards at schools sites; use of technology in instruction; and the implementation of Positive Behavioral Intervention and Supports (PBIS) in all schools. While the current PD does focus on instructional and curriculum in mathematics, English, and science, the RBUSD is also developing PD for History Social Science standards.

The RBUSD is engaged in a multi-layered approach to delivering PD. The District provides PD through: teacher release time; conference attendance; one-day workshops; mentoring; and after-school, “early out” days. The elementary schools utilize weekly collaborative planning time through the implementation of a School Instructional Leadership Team and grade level leads.

Targeted teacher development activities are essential for increasing the quality of education to students. The below topics are a few of the professional development areas for this school year:

- Reading strategies
- Grade level articulation
- Professional Learning Communities (PLCs)
- Student mental health
- Mastery Learning
- Failure as part of the learning process
- Examination of student assessment results

The use of student data is critical to better assess and support individual student development. The District provides training on our student data management, Illuminate Education, to analyze individual and aggregate student progress. Elementary teachers and secondary math teachers utilize the TenMarks math program both to assign and assess student performance. All of the stated teachers have had PD training on the TenMarks program.

Internal PD offerings are supplemented by partnering with external professional development organizations, including universities such as LMU and UCLA. Our partners advise on the District’s program development and provide PD for teachers and administration on instructional programs for all students.

Our new teachers are supported at school sites and at the District level through the Beginning Teacher Support and Assessments (BTSA) Program where each new teacher is mentored by a BTSA support provider. By working with BTSA, a new teacher receives support and resources to improve their teaching pedagogy.

Through the collective bargaining process, additional paid professional development days have been added to the teacher work calendar (two additional days in 2017-18 and 2018-19).
