

VHMS Community Service Project Timeline of Due Dates

It is important to be organized when you have a long-term project so that you progress at a steady pace and avoid procrastination. As you work on your IB Community Service Project, be mindful of the following timeline so that you will achieve success.

Make sure you have your copy of the IB Community Service Project Student Handbook, which you can get from the Community Service 2018-19 Google Classroom. The journal prompts mentioned in the timeline below can be found in the handbook. If you are working in a group, your whole group should contribute answers to one handbook that has all of your names on it.

Note: All due dates are the last possible day by which you should finish the task. It is better to do things earlier, especially if you need to meet with your mentor. Do NOT expect your mentor to be able to meet with you on the last possible day!
