

# How to change Search Engine

In Google Chrome for Ipads at VVISD

By : William Fratianni

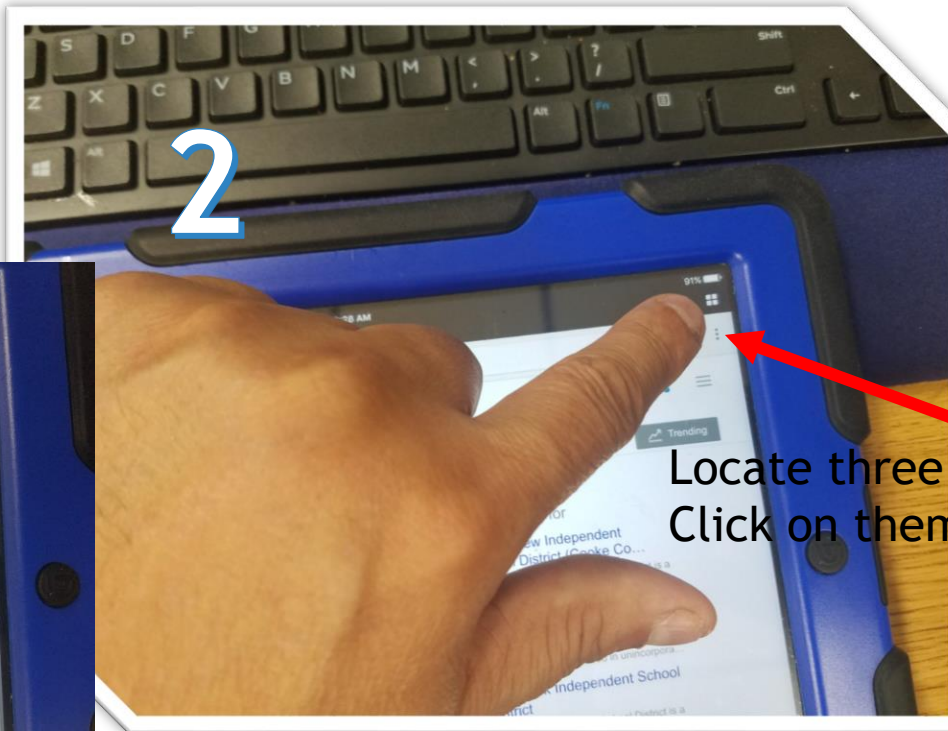

This is Google Chrome. Also a Web Browser that is user customizable.

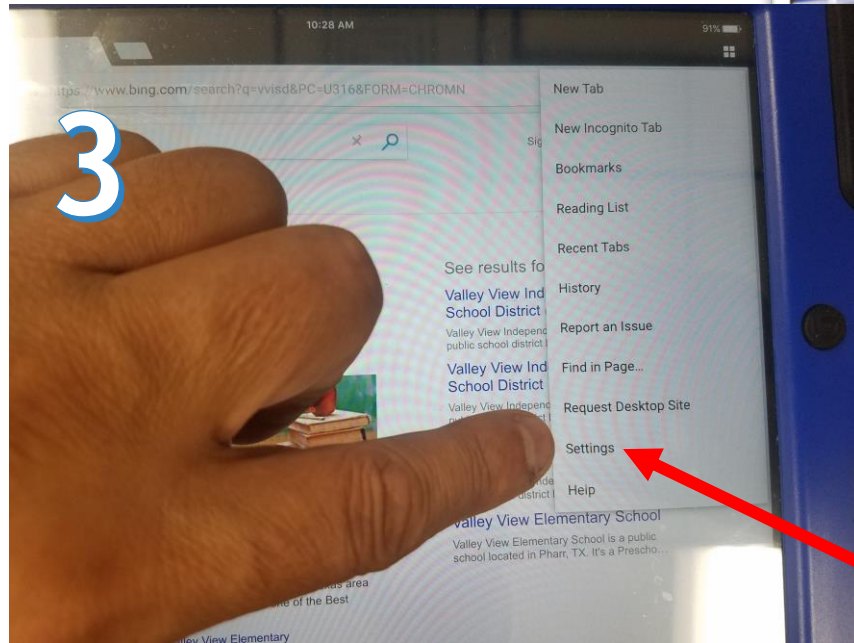

This is Safari. Apple's Default Web Browser

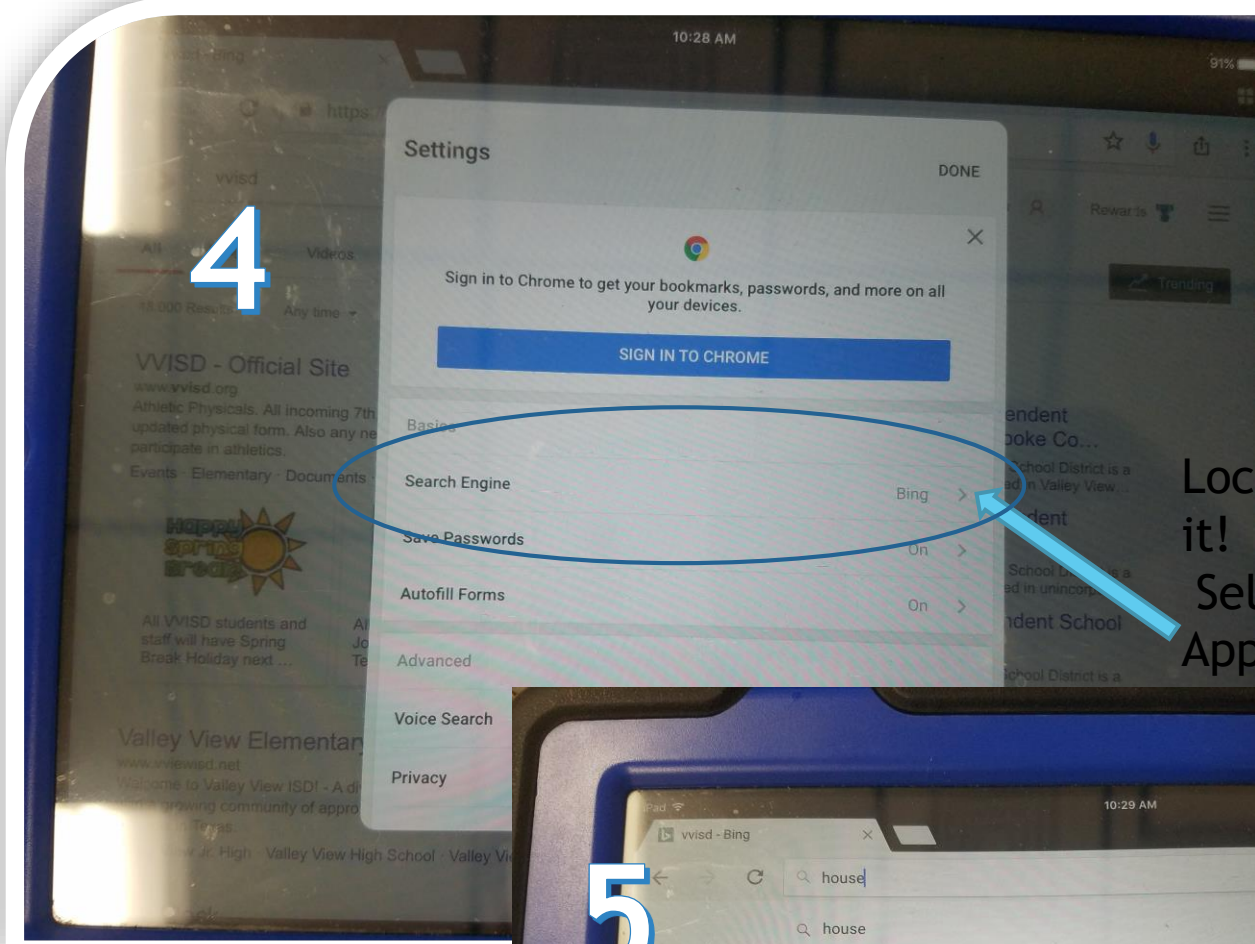

Select Chrome Icon and click on it.

Locate three dots. Click on them to open Settings

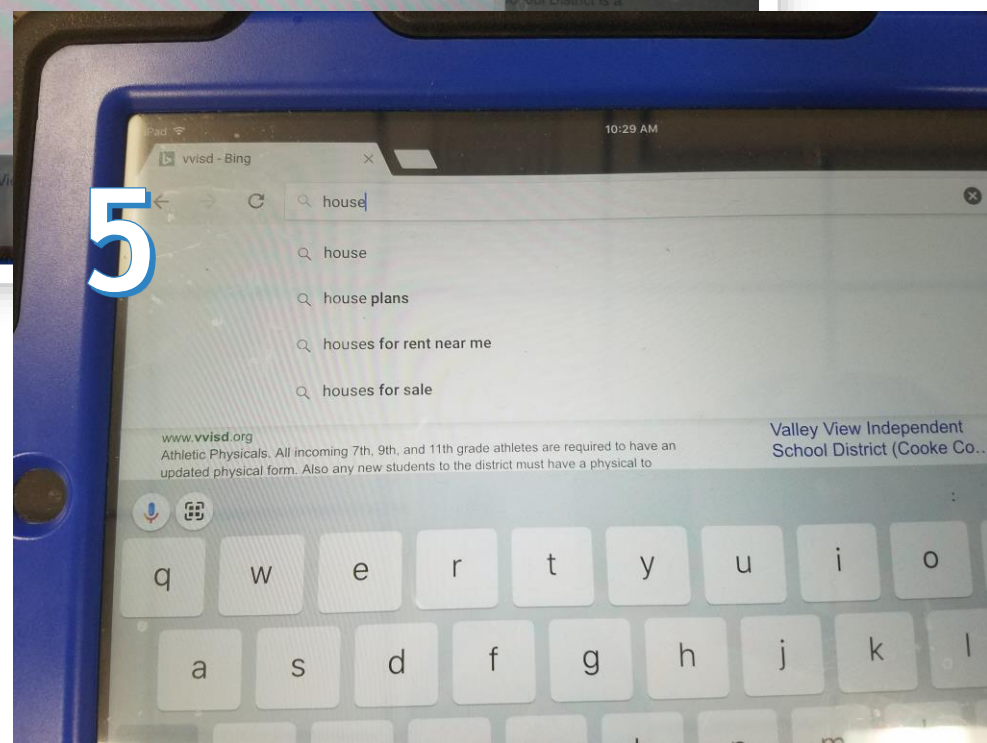

Click on Settings .

Locate where it says Search Engine. Then click on it!

Select **BING** as your search engine. Make sure a ✓ appears next to it. Then click Done

Type a word to search results. Chrome App Is now using Bing as Search Engine and allowing safe searches.
