

LOOKING FORWARD TO 3RD GRADE

We are looking forward to a great year in 3rd grade! Third grade is an exciting year where students begin to make the transition to independent learners. Research, writing skills, multiplication, division, cursive writing and local history are just some of the major topics we will study next year.

In order to have a successful year, there are certain supplies we would like our incoming third graders to have. Below you will find a list of recommended items for third grade. It would be wonderful if you could provide your child with these items during the first weeks of school and replenish them throughout the year. We have also included a list of classroom supplies we would love to have if you could make a donation. Due to the decrease in state funding, our classroom budgets have been depleted, and this year, it is even more important than ever to have this supplemental support from our parents.

We are providing this list to you now so that you can take advantage of the Back to School sales during the summer. Thank you in advance for your support!

Supplies for Each Student

- Pencil box – regular size
- Crayons (box of 24)
- Colored pencils (box of 24)
- Erasers
