

Dear Second Grade Families,

During this time of at-home learning, here are some (optional) sites students can work on from home. These are optional resources to use, if you would like.

SUGGESTED OPTIONS:

- Your child should know their log in information for the learning resources listed below:)
- Read 20 minutes a day, with a book or RAZ Plus (do assignments first) Don't forget to fill in your Reading Logs! <https://www.raz-plus.com/>
- Practice reading and math skills using eSpark at home (do assignments first) (See Parent Letter to log in) <https://www.esparklearning.com/>
- Write a story with your family each week: Narrative (about something you do or something that happened to you) or non-fiction (teach us something). Be sure to include topic and closing sentences, sequence words, punctuation marks and best spelling! When we return to school, bring your stories to share.
- Xtra Math fact fluency <https://xtramath.org/#/signin/classroom>
- Khan Academy for Second Grade Math Skills <https://www.khanacademy.org/>
- Khan Mappers for differentiated math learning based on your child's NWEA scores <https://www.khanacademy.org/mappers>
- Science <https://mysteryscience.com/school-closure-planning>

Thank you for supporting learning at home. We will be sending more learning opportunities as we receive them.

We find so much joy in seeing students learn and look forward to seeing them when they return. We hope that you and your family are safe and healthy at this time of uncertainty in our community.

Please do not hesitate to contact us with questions. We look forward to seeing you all again after Spring Break!

Your Second Grade Teaching Team,

Mrs. Hartley, Mrs. Masters and Mrs. Taft
