Release of Results

The application results will be released on March 27th. Online applicants receive their first-round results on March 27th via their online GoCPS account. Paper applicants receive a notification letter sent via U.S. mail to the home address on their application. In addition, paper applicants can view their results on an online GoCPS account that has been opened for them by the Office of Access and Enrollment (based on the email address or phone number on the paper application).

Families received an email and robocall on Friday, March 20th with instructions on how to access their children's application results. This communication encourages families to visit go.cps.edu as soon as possible to ensure that they are able to log into their accounts. The GoCPS application site will be down starting Tuesday, March 24th, as we prepare for the release of results. Therefore, families will need to visit go.cps.edu and click 'Log In' before that date. If you have signed proxies for your students and will be completing the accept/decline process on parents' behalf, please be sure to confer with parents before taking any actions.
