## Virtual Learning Expectations

These are the Virtual Learning expectations as we understand them from admin at this time. Things change frequently and we appreciate your patience in this unprecedented circumstance.

1. The time goal for student instruction and activity is **2 hours per day**. This includes time your child is working with his/her teacher via Zoom.
2. The key subjects are Math and Reading. Module & Spelling can be viewed as enrichment
3. Student Work can be submitted to your child's teacher through portfolio post on Class Dojo (unless you are given individual directions by teacher) please hold all hard copies of work in student's yellow folder.
4. You may receive feedback on work but nothing will be graded punitively
