

iSchool initiative

iSchool is a Wilson County Schools initiative that meets the needs of non-traditional students. iSchool provides a unique, tuition-free learning opportunity by offering a large variety of online courses to students enrolled in grades 6-12.

iSchool is for students who:

- Are currently homeschooled or previously homeschooled and need more support with the middle and high school curriculum
- Would benefit from a blended schedule that provides flexibility to meet their needs
- Are self motivated, committed to academic success, and able to monitor their own progress
- Have the proper support at home to be successful.

Enrollment Begins August 12
