

FOR IMMEDIATE RELEASE

GREEN MEADOWS INTERMEDIATE ELEMENTARY RECOGNIZED AS A MODEL PROFESSIONAL LEARNING COMMUNITY AT WORK™ One of About 200 Schools and Districts in the US and Canada to Receive This Honor

Frankfort, IN — Green Meadows Intermediate Elementary was recently recognized by Solution Tree for its sustained success in raising student achievement. Green Meadows' successful implementation of the Professional Learning Communities at Work™ process was a major contributing factor in the improved achievement of its students.

PLCs are schools and districts in which educators recognize the key to improved learning for students is on-going, job-embedded learning for the adults who serve those students. The three big ideas of a PLC call upon educators to:

1. Focus on learning.
2. Build a collaborative culture.
3. Create a results orientation.

Responding to news of the recognition, Principal Brian Johnson said, "We are honored and excited to have been recognized as a Model PLC School. Our staff is confident in the direction we are moving and take our responsibility of ensuring all students learn at high levels very seriously. It takes all staff members doing their part to get this type of recognition, and we are very proud. With that being said, our teachers and staff know we can't be content with what we have accomplished to this point. We must continue to grow and improve each day, which is one of our core beliefs at Green Meadows."

Schools are recognized based on strict criteria, including demonstration of a commitment to PLC concepts, implementation of these concepts for at least three years, and clear evidence of improved student learning over that period. Once measurable results can be seen, the school must explain its practices, structures, and culture and submit its application for consideration by the PLC Review Committee.

According to the Champions of PLC at Work™, educators in the schools and districts selected for this recognition have shown "a sustained commitment to helping all of their students achieve at high levels. They have been willing to alter the structure and culture of the organization to reflect their commitment. We applaud them and congratulate them for achieving this very significant milestone on the never-ending PLC journey."

Recognized model PLC schools are listed on allthingsplc.info, where they share implementation strategies, structures, and performance with other educators interested in improving their schools. Tools for team collaboration, articles and research about PLCs, blog posts, and other related resources are also available on the site. The site was developed and is maintained by Solution Tree, a leading provider of educational strategies and tools that improve staff and student performance. For more than 20 years, Solution Tree resources have helped K–12 teachers and administrators create schools where all children succeed.
