**Question #1:** Can the old wood chips be dumped at the cemetery?

**Answer #1:** No, the material can be dumped at “Georgia St” behind Nampa High School, we will provide address to the contractor.

**Question #2:** Where do we dispose of the excavated material?

**Answer #2:** The material can be dumped at “Georgia St” behind Nampa High School, we will provide address to the contractor.

**Question #3:** What is the desired size/footprint for the Sherman’s second play area?

**Answer #3:** Our preferred option is a 5200 sq. ft footprint (75’ by 69.3’) against the track on the north and east of the main irrigation line. The existing equipment may be removed or incorporated into the new design.

The district wants the best possible proposals. After fielding a question to further clarify our stance and chatting with our maintenance dept., we would prefer the removal of all existing equipment, but the existing equipment still can be incorporated into the new design if that is the contractor’s preference.

**Question #4:** What is the desired size/footprint for the Central’s play area?

**Answer #4:** Our preferred option is a 7200 sq. ft footprint (e.g. 80’ by 90’). The exact dimensions can be determined by the design.

**Question #5:** Can we link the two play structures at Central?

**Answer #5:** After discussing with the administrator at Central Elementary, we would like two distinct play structure to keep age groups separate.

**Question #6:** How do we connect the ADA access at Central?

**Answer #6:** To avoid damage to the irrigation system mainline, we will keep the existing border location for the play area closest to the gym. We will need an accessible sidewalk installed from the concrete area next to the gym to the new play area.
Question #7: Do we want swings incorporated into the central play areas?

Answer #7: Yes, after chatting with the building administrator, we do want a few swings (2 to 4) incorporated at the new play structure design. Don’t forget about the accessible swing too.

Question #8: Do we want swings incorporated into the Sherman grade 3-5 play area?

Answer #8: Yes, we do. Please be sure to include an accessible swing.
