

# Watervliet North School Technology Acceptable Use Policy

The use of the Watervliet School District's technology resources is a privilege, not a right.

The privilege of using the technology resources provided by the Watervliet School District is not transferable or extendible by students to people or groups outside the district and terminates when a student is no longer enrolled in the Watervliet School District. All users should be aware of the responsibilities associated with efficient, ethical, and lawful use of technology resources. **Students shall have no expectation of privacy when using their student accounts or in the contents of technology devices within the district (laptops, desktops, Chromebooks).**

If a student violates any part of the *Acceptable Use Policy*, privileges may be terminated. Access to the school district's technology resources may be denied or revoked and the appropriate disciplinary action shall be taken. The Watervliet School District's *Acceptable Use Policy* as well as the *Student Handbook* shall be applied to student infractions.

***Violations may result in disciplinary action up to and including suspension/expulsion for students. When applicable, law enforcement agencies may be involved.***
