

JH Parents (Willow Wood):

Seems like it is way too early, but we are once again quickly approaching the school year again. I am extremely excited about the 2018-2019 swim season, because of the anticipated growth I know we are able to achieve. Over the past few seasons, with the support of our parents, our program has really started to build some momentum. Both our girls team and our boys team are performing better and the support we have been able to provide is facilitating growth. When I say this, I truly mean this, parent support during junior high school high school is the critical difference maker.

Last season with your support, we launched our Tomball Streamline Club to provide support while facilitating a culture of growth in our program. "The Tomball Streamline Club" continues to provide a place for parents to collaboratively work together and help provide opportunities beyond what is possible without parent support for the students.

**Our vision for the Tomball Streamline club includes....**

- Organizing and communicate volunteer opportunities for different types of events.
- Organizing and communicate special social events for swimmers and their families.
- Organizing and creating special treats for swimmers leading into championship meets.
- Organizing and creating special meals or decorations for the swimmers during the season.
- Organize and support the financial needs of the swim team beyond what the school is able to provide.

**Streamline Club Meetings**

How does the "Tomball Streamline Club" impact you at the JH level.

- Parents will have the opportunity to get together specifically to support junior high level swimmers.
- Parents will have the opportunity to support junior high level meets and practices.
- Parents will have the opportunity, if they choose, to support special events at the junior high level.

Please contact me with any questions or concerns you may have. Looking forward to working with you as we support Willow Wood Wildcats!

Sincerely,

Brian Vestal
