

Arthur Academy MobyMax Math Challenge

Practice for Pride & Prizes!

All Arthur Academy students are invited to participate in our MobyMax Math Challenge!

This challenge runs from December 3rd-January 11th!
This is a 6 week challenge.

When students login to their MobyMax accounts to practice math, the program will automatically log the practice minutes.
Teachers will provide students with their login information

Students who meet the practice goal will earn a prize!

Kinder: 40 min/wk = 240 minutes
1st Grade: 50 min/wk = 300 minutes
2nd Grade: 60 min/wk = 360 minutes
3rd-6th Grades: 70 min/wk = 420 minutes

Each AA grade level will be competing for their class' trophy.

The AA school with the highest average number of minutes per student will earn a prize and be presented the MobyMax Math Challenge trophy by Ms. Walker at an upcoming assembly.

Why MobyMax? It's a great way for students to practice math problems tailored to their level. It also gives our students an opportunity to work with different types of math problems.
