Differential Graduation and Competency Standard for Individuals with Exceptional Needs

The Governing Board recognizes that proficiency standards adopted for students enrolled in regular educational programs may not be appropriate for all students enrolled in district special education programs. Certain students with diagnosed disabilities that prevent them from attaining the district's regularly adopted proficiency competencies may need differential standards.

Students with exceptional needs should meet the regular district graduation standards to the extent that their handicaps or disabilities permit.

The Individualized Education Program Team (IEP) will determine if a student's handicaps or disabilities preclude the student from attaining the district's regular standards. The determination and development of appropriate differential proficiency standards will be included in the process of developing and managing the student's individualized education program.
