

Click on the desktop app. The first time you log in, you will be prompted to type your child's school name in the domain field. Domain name format is school.district.state (e.g., mcnair.dallas.tx).

*If you have students at different campuses, they will need to log in under different domains. This can be done two ways:*

1. *Type in the following login information:  
Username: config  
Password: config  
Enter the correct campus or domain for the student logging in. Then click OK.*
2. *Download the program a second time and set it up with the domain for the specific campus. You will then want to save this*

Save this information to your  
file for future use.
