Collierville Schools to Remain Closed for the Year

Collierville, Tennessee (April 15, 2020) – This afternoon Tennessee Governor Bill Lee recommended that, in the interest of public safety, all schools in the state remain closed “through the end of this school year.” In compliance with this request, Collierville Schools will remain closed through May 22nd, the last day of our school year. In the meantime, we will continue to provide optional learning opportunities for all students on our website. In the coming days, the district will share important information with Collierville Schools families regarding semester grades, collection of digital devices, claiming of personal belongings, and plans to recognize and celebrate the Collierville High School Class of 2020.
