

Session 1 • June 10 - 13

Dinosaurs & STEAM

Mrs. Montes
PK - 1st Grade
9am - 2pm
LS Building
\$210

Join us for a hands-on, creative journey as we learn about dinosaurs. Daily science activities, crafts, and investigations will lead campers to great discoveries in the Jurassic period. Watch volcanos erupt, dig for fossils, create frozen dinosaur eggs, and build LEGO® dinosaurs! *Please bring a sack lunch. Splash Day on Thursday!*

Session 2 • June 17 - 20

Princesses & Pirates

Mrs. Montes
PK - 1st Grade
9am - 2pm
LS 107
\$210

Ahoy, Matey! Send your little pirate or princess on a sailing adventure across the vast expanse of the seven seas! Imagine, create, and explore with dress-ups, scavenger hunts, sailing boats, and sipping tea. *Please bring a sack lunch. Splash Day on Thursday!*

EXTRAordinary Engineers

Ms. Boldine
3rd - 5th Grades
9 - 11am
LS 203
\$150

We will transform into engineers, using ordinary materials and create something EXTRAordinary! Imagine, design, and problem-solve while building inventions out of everyday objects. With STEM and littleBits™ challenges, students will work independently and in small groups. The possibilities are endless! *If your camper stays for FUNrichment!, please bring a sack lunch.*

SPECIAL OFFER: take EXTRAordinary Engineers AND FUNrichment for \$275!

FUNrichment!

Ms. Boldine
3rd - 5th Grades
12 - 2pm
LS 203
\$150

Where else will you find Alka-pops, marshmallow structures, tangrams, cornstarch suspension, invisible shields, elephant toothpaste, watercolors and poetry? Only in this one-of-a-kind camp! Unique activities, experiments, and games will integrate reading, art, math, and science to foster teamwork, good sportsmanship, social skills, self-confidence, creativity, and problem solving.

Session 3 • June 24 - 27

Pre-Algebra Unit 1

Mrs. Morrow
7th Grade
9 - 10:30am
Pavilion
\$200

Designed for the incoming 7th grader who is eager to get a jump start on Pre-Algebra! Your student will strengthen skills and stretch their mathematical brain to look at algebra skills in a fun way. The first of two units – content will be different for each unit.

Designing Bridges

Mrs. Sullivan
1st - 3rd Grades
9 - 11am
LS 206
\$150

Civil engineers design bridges accounting for many factors. We will start with *Javier Builds a Bridge* - the story of a boy who needs a safe footbridge to his island play fort. We will experiment with bridges, discovering how design affects force and motion. In the final challenge, campers plan, build, and test their own bridges!

Looking at Algebra Unit 1

Mrs. Morrow
6th - 8th Grades
11am - 12:30pm
Pavilion
\$200

Dig in to Algebra by using games and activities that will keep the morning fun and motivating! Acquiring skills in radicals, polynomials, systems of equations, rational expressions, linear equations, graphing, and factorials has never been so exciting! The first of two units – content will be different for each unit.

Session 4 • July 22 - 25

Pre-Algebra Unit 2

Mrs. Morrow
7th Grade
9 - 10:30am
Pavilion
\$200

Designed for the incoming 7th grader who is eager to get a jump start on Pre-Algebra! Your student will strengthen skills and stretch their mathematical brain to look at algebra skills in a fun way. The second of two units – content will be different for each unit.

Getting Ready for Middle School

6th Grade Teachers
rising 6th Grade
9 - 11am
CFE
\$150

This class is designed for students entering 6th grade at St. Clement's School. Learn how to be organized. Create a plan for building strong study habits. Get tips for having a successful school year. Learn about upcoming Middle School activities, and get to know some of your classmates and teachers.

Chemistry Around the World

Mrs. Mandell
2nd - 5th Grades
9 - 11:30am
LS 204
\$150

Go on a journey around the world and explore some of our planet's most interesting destinations! Each day, students will "travel" to a different region on the globe and learn about the geography and people of the area, followed by a fun chemistry experiment related to each destination.

Looking at Algebra Unit 2

Mrs. Morrow
6th - 8th Grades
11am - 12:30pm
Pavilion
\$200

Get ready to dig in to Algebra by using games and activities that will keep the morning fun and motivating! Acquiring skills in radicals, polynomials, systems of equations, rational expressions, linear equations, graphing, and factorials has never been so exciting! The second of two units – content will be different for each unit.

Session 5 • July 29 - Aug. 1

Getting Ready for Middle School

6th Grade Teachers
rising 6th Grade
9 - 11am
CFE
\$150

This class is designed for students entering 6th grade at St. Clement's School. Learn how to be organized. Create a plan for building strong study habits. Robot Games

Mrs. Martinez
4th - 8th Grades
9 - 11am
LS 104
\$150

In Robot Games, we'll use LEGO® Robotics kits to design EV3 robots and bring them to life! With "Into Orbit" missions and the LEGO Mindstorms® education app, you will learn and practice how to program your robot creation.
