North School students are off to a great start. We are working hard on grade level concepts and to improve our state assessment scores. This year also brings a new playground structure! Our students give many thanks to our PTO, Watervliet Public Schools, Dave Burrows (Handyman Extraordinaire) and his crew that built it, Jessica Jordan and Palisades Nuclear and of course all of our community members who donated throughout this whole process. Our students are having a blast at recess, playing on the new structure (see pictures below)! It has truly made a difference during fun time!

As the holiday seasons approach, please continue to read with your children. Keep an eye on their homework and planners. Remember that we have a calendar on our North School website to help you keep up to date on all of the happenings here at North. Feel free to email or message your child's teacher at any time so that you can keep up to speed on what is going on in your child's class. Attendance has been really good this year! On one day, we only had two students gone out of 304! That is incredible and as you all know, attendance has a direct positive impact on your child's education. We hope you have a good holiday season as we approach the end of this calendar year!

Dates to be aware of for North School students:
