

College Testing Info Presentation:

The tests, timeline and what it all means!

December 12th

@ 8:30am in the MPR

Freshmen – Junior parents & students welcome

Adam Ingersoll is the co-founder of Compass Education Group, a provider of one-on-one tutoring for several thousand students annually around the world. Adam is now in his third decade in the college admission testing arena. We have invited Adam/Compass to be here because Adam is recognized as a leading voice in this field and is a frequently requested guest speaker at schools and conferences. Adam is even invited to lead training workshops for the admission staff at colleges and universities, most recently USC and Caltech. He will join us to share insights on how to help students (and parents!) successfully navigate the testing requirements of college admission.

Note that the **Guide to Testing** that will be provided is a wonderful resource. You are not obligated to do so, but if you fill out the card in the back of the book, Compass will email you timely updates once a month keeping you informed on the topics that are evolving and providing you access to practice test opportunities. We trust that they will respect your privacy. Sophomores can also pick up their PreACT test results, and Juniors will receive their PSAT score reports after the presentation.
