

**Vallivue School District 139**

The Idaho Legislature requires that all public schools which include 9<sup>th</sup> grade students and above be accredited through AdvancEd. To comply with this standard, the following schools in Vallivue School District will obtain accreditation by meeting the AdvancEd Standards:

1. Vallivue High School
2. Vallivue Academy
3. Ridgevue High School

The State Board of Education has determined that AdvancEd Standards are an acceptable method of obtaining accreditation. The board of trustees believes that accreditation through these standards will allow schools in this district to provide a thorough education for all students, achieve the mission and goals of the district, and allow flexibility in implementing educational programs.

The Idaho Department of Education requires that schools accredited under the AdvancEd Standards annually submit the Accreditation report.

The school principals, with assistance from the superintendent or designee, will complete the annual accreditation reports and submit a copy to AdvancEd.

It is the goal of Vallivue School District to receive an “approved” rating on the annual accreditation for each high school in the district. The board of trustees will receive annual reports regarding the ratings received by the high school(s). If any high school in this district receives a “not approved” rating the board of trustees will oversee the implementation of remedial steps to obtain an “approved” rating.
