

*It's already November!*

*The Career Center has been very busy preparing college bound seniors. Every year September through the end of November are important for those seniors to register for their final round of SAT or ACT testing, completing college essays, college applications, and financial aid applications, and NCAA registration for student athletes.*

*Over the last month, there have been over 867 visits to the career center for the various resources, including CSF club meetings.*

*In addition to the resources, we had a nice surprise visit from USC who challenged our students to apply given that the generous amount of financial aid money is available to them. Over 60 students were in attendance.*

## **CAREER CENTER BLOG**

*Cash for College Night on October 30<sup>th</sup>, 2018 was a huge success. Over 120 Parents & Seniors completed their Financial Aid and the California Dream Act Applications with our FAFSA experts and volunteers.*

*Every year, we strive to give our families the opportunity of receiving federal or state funded financial support for advanced training for trade or vocational schools or the colleges of their choice.*

*Financial Aid is offered by the college in the spring when admissions are determined, so it's never a bad idea to apply to a safety school and few others. When a student is offered admission by more than one school, the student and parents can determine which is the best financially feasible based on their award.*
