

Dear Mrs. Creech and Mr. H.,

The 2nd graders have an inspiring idea for the CDS community. We learned that taking initiative means showing respect for people by being helpful and responsible when nobody asked and do it for other people and not just yourself. We want to inspire the CDS community to take initiative and make the school more awesome by starting a club.

Having a club is lots of fun and you would

learn about how to
take initiative. There will
be games that we play to
teach kids how to take
initiative. We will be writing
a table and doing fun
stuff with it. We will have a
special cheer that our club will learn.

A club is a creative,
entertaining, and an informative
way to learn how to take
initiative. The club is a
creative idea because

you get to draw; read,
and make posters. The club
is entertaining because you get to be with
your friends and have a lot of fun! The
club is an informative idea
because it will show everyone
how to show more initiative.

The club will teach lots of
kids how to take initiative and
when they take initiative
more people will see it and
it will spread. One person
will learn about taking

initiative and then
someone else will want
to try it and soon.
If you do it then your
friends will do it, then
everyone else will do it.
Working together in club will
spread your thoughts on how
important it is to take initiative.

The 2nd graders would
like to create a "Taking
Initiative" Club that would
be once a week in March

and April. We thought it would be a great way to start the morning off. The 2nd graders will plan a lesson and do an activity. We would announce the week's topic at Morning Gathering to encourage kids to sign up. We are thinking of having the club on Thursdays. If this is a success maybe we could continue this more permanently next year. We think spreading

initiative to the whole CDS
community is important in
making our community a better
and more awesome place.

This club will help inspire
others to do this!

Sincerely,
The 2nd graders
