

## **Victor Pacini Bio**

Victor Pacini is one of the most sought after speakers and trainers on the topics of sexual abuse (Erin's Law) for children. Victor Pacini understands the delicate nature of abuse. Not only is he a survivor of sexual abuse, but his sister was murdered in 2001 due to domestic violence.

His dynamic Erin's Law curriculum has been delivered to over 750,000 children and parents. He's been referred by school administrators as, "The most unique and effective presenter of sexual assault awareness."

He is the author of *Winning Within, There's Only One You, Be Seen and Heard (Erin's Law Content)*, *Your VOICE, My Dreams*, and has recorded two music CD's.

Victor caught the inspirational eye of Dr. Wayne Dyer, and was asked to sing during his *Power of Intention* tour. Wayne said, "Victor, you did a great job with my audience. My granddaughter loved your book."

Victor is respectfully known for designing engaging and entertaining presentations and products on the topics of confidence building, character building, goal setting, anti-bullying, and child abuse training.

His ultimate goal is to help children and parents increase their knowledge and awareness about the topic of sexual abuse and domestic violence. He does this by delivering it from a fresh and positive perspective. This perspective skyrockets self-confidence and increases the parent-child connection without being disingenuous and insensitive.

Some of his audiences have included the Illinois PTA, Cebrin Goodman Teen Institute, Kansas PTA, Indiana PTA, National PTA, Abbott Labs, WINGS (Domestic Violence Agency), and schools all over the country.
