Q4 The School Program is meeting the needs of our family; providing our family with adequate resources and curriculum. **Disagree,**
 Other/Comments (please specify):
 Still not a lot of classes, field trips, what would typically be extracurriculars (like ROV), or volunteering for the under 3rd grade kids. Need better access to younger kid science curriculum for at home use. Get math u see back, even if only by special order. It works very well for some kids. There must be some kind of supplemental work that would make it "common core standards" and make everyone happy.

Q5 Mountain Oaks provides outstanding Student Support Services: Counseling, Special Education, College and Career Guidance, etc. **Neither agree nor disagree,**
 Other/Comments (please specify):
 Haven't used yet.

Q6 I am familiar with and understand the grades, assessments and testing that my student(s) participate in. **Agree,**
 Other/Comments (please specify):
 Too frequent testing.

Q7 Our family is clear regarding goals and expectations for my student(s).

Strongly agree

Q8 I am familiar with and understand the paperwork, policies and procedures for managing my student's learning plan.

Agree

Q9 Mountain Oaks provides a safe learning environment and maintains a positive school culture.

Agree,

Other/Comments (please specify):

There's a lot of name calling between the unsupervised teenagers. Even if it's supposed to be "friendly", I know my younger kids would feel hurt by the same thing - I doubt teens are any different. I feel that there should be some expectation from all of the adults that teenagers can treat each other with respect - at least while they're at the school.

Q10 The Mountain Oaks Governing Board, Administration and Staff are effective with the overall management and operation of the school.

Neither agree nor disagree,

Other/Comments (please specify):

The staff probably would have something to say anonymously about this.

Q11 If invited, I would participate in focus groups put on by the School Administration to discuss the future of Mountain Oaks and participate in our Accreditation process (WASC).

Neither likely nor unlikely,

Other/Comments (please specify):

What kind of time commitment is involved?

Q12 Please describe the curriculum resources and workshops your student(s) utilize/attend. What recommendations do you have for curriculum and/or workshops?

Curriculum:

Out of pocket- music, sports, art supplies, evolution based science, math u see (through fractions), many subject-specific books unavailable through local libraries, logic puzzles and critical thinking work. At the school - saxon math from 6/5 onward, library books for general reading, not much else.

Workshops:

Spanish, pottery, science, art

Recommendations:

I feel that my children do not get to use the state funds to their full extent. There isn't enough for younger kids to the point that I often consider taking my kids out of mountain oaks. The community aspect has been damaged too, now that the families who choose not to vaccinate aren't allowed on campus, on field trips, etc.

Q13 Mountain Oaks is developing Tk-12 pathways to prepare students for life after high school graduation. This includes providing access to several Career and Technical Education Pathways. Please select all of the pathways your family may be interested in.

Q14 What are the Special Events and Workshops that are most important to your family? Feel free to recommend.

Special Events:

Halloween, winter party, valentine's

Workshops:

Pottery, spanish

Recommendation:

Music, martial arts at San Andreas site. Public speaking and critical thinking classes.

Q15 Additional comments or observations you would like to add that are not part of this survey:

Not a very strong culture of high expectations after high school. It's true for this whole region of California and it just seems odd.

 Other/Comments (please specify):
 We are told that there will be a test and what date/time to show up. It would be nice to know what the test will cover, why they are testing, and what can be done to prepare.

Q7 Our family is clear regarding goals and expectations for my student(s). **Agree**

Q8 I am familiar with and understand the paperwork, policies and procedures for managing my student's learning plan.

Agree

Q9 Mountain Oaks provides a safe learning environment and maintains a positive school culture.

Disagree,

Other/Comments (please specify):

There are many disrespectful students that are not supervised during the school day. They are dropped off in the morning and picked up at the end of the day. There are times when they are disruptive in spaces that should be quiet for learning students (the library) not to mention the yelling, running and throwing of balls that wild goes on in the courtyard area. Often time I take my children to the car to do school between their classes because it is the only quiet and comfortable space.

Q10 The Mountain Oaks Governing Board, Administration and Staff are effective with the overall management and operation of the school.

Agree

Q11 If invited, I would participate in focus groups put on by the School Administration to discuss the future of Mountain Oaks and participate in our Accreditation process (WASC).

Likely

Q12 Please describe the curriculum resources and workshops your student(s) utilize/attend. What recommendations do you have for curriculum and/or workshops?

Curriculum:

We use some of the consumables that are provided by the school but do purchase about 50% of our curriculum.

Workshops:

Both of my children have IEPs so we participate in the writing classes, math classes, and social skills classes.

Recommendations:

Would like to see the core classes for younger grades earlier in the day (3rd-5th grade math at 3:30 in the afternoon does not work) Would also like to see mentor students in the social skills classes to help the kids out.

Q13 Mountain Oaks is developing Tk-12 pathways to prepare students for life after high school graduation. This includes providing access to several Career and Technical Education Pathways. Please select all of the pathways your family may be interested in.

**Agriculture, Natural Resources and Forestry,
Business and/or Self-Employment,**

Other (please specify):

These type classes are a great idea as long as they have steps for the students. Ex; intro class to see if it is for that student, then intermed class to take it a step further and then an advanced classes for those truly interested in making a career in that area. Steps to success.

Q14 What are the Special Events and Workshops that are most important to your family? Feel free to recommend.

Respondent skipped this question

Q15 Additional comments or observations you would like to add that are not part of this survey:

We would like to see change in how the beginning of the year schedules are done. It would be nice to have a time period when the mentor teachers and resource teachers contact their students to set up meeting times THEN have the workshop sign ups so that parents know what they can and cannot enroll in so as to not conflict with meeting times. Also we would LOVE to see workshops that are industry based: Agriculture, Forestry, as well as interactive learning for subjects like Art, History, Science, Home Arts, Etc.

 Still love seeing our mentor Teacher! But munchkin is not on recommended schedule of vaccinations.

Q4 The School Program is meeting the needs of our family; providing our family with adequate resources and curriculum. **Agree,**
 Other/Comments (please specify):
 We ARE GIVEN MANY GREAT RESOURCES to make great progress. I chose homeschooling for my child because I know I can keep him on track. However, 1) I would love to be a bit more informed on what kinds and how many of each question he will be presented during his testing to feel better prepared for them. There have been times that questions came up upon which we had not studied on, so 2) assignments after testing could more reflect specific weak points in our skills. I'm not attentive enough yet to the website, and plan to improve in that but 4) I could use a tad more warning from the mentor teacher about picture purchasing window of time and science fair times. Mentor teacher has been GREAT at keeping us up to date on field trips.

Q5 Mountain Oaks provides outstanding Student Support Services: Counseling, Special Education, College and Career Guidance, etc.

Neither agree nor disagree,

Other/Comments (please specify):

I'm not sure my 2nd grader has yet been in need of these, so we haven't examined the support the school has in this area.

Q6 I am familiar with and understand the grades, assessments and testing that my student(s) participate in.

Disagree,

Other/Comments (please specify):

I have noticed that what I believed 2nd grade skills to be is different than what my son is learning, so I am unfamiliar with his grade to a degree? I don't know how the mentor teacher grades his work or progress or if I am perhaps supposed to be doing the grading? I am not usually in the building when he tests, (I used to hang out in a neighboring room), so I no longer have confidence that I know why he may have difficulty with a particular question on a test.

Q7 Our family is clear regarding goals and expectations for my student(s).

Agree,

Other/Comments (please specify):

I have been made aware that progression in skills is most important, and have sometimes been shown progress report after tests were taken. I am usually made aware a bit before testing is given, so I know he has to be in contact with our mentor teacher at a particular time.

Q8 I am familiar with and understand the paperwork, policies and procedures for managing my student's learning plan.

Other/Comments (please specify):

I have seen some reasonable paperwork, but am unsure if it is all that is required?

Q9 Mountain Oaks provides a safe learning environment and maintains a positive school culture.

Strongly agree,

Other/Comments (please specify):

I believe this to be true! We ALWAYS feel safe. Staff always remind everyone to check in and out. Outings with the school were lovely too. This school always made us feel welcome. It is state laws that keep us out of group activities now. Everyone has been great!

Q10 The Mountain Oaks Governing Board, Administration and Staff are effective with the overall management and operation of the school.

Agree,

Other/Comments (please specify):

A charter school in California can only survive with good management I would think. My complaints in my particular case have been specified above. Maybe some of the teachers could use an aid when they have multiple grades to teach?

Q11 If invited, I would participate in focus groups put on by the School Administration to discuss the future of Mountain Oaks and participate in our Accreditation process (WASC).

Very likely,

Other/Comments (please specify):

I am strongly interested in the process. As a parent with a child who is not on the recommended schedule of vaccinations, I want to do what I can in support.

Q12 Please describe the curriculum resources and workshops your student(s) utilize/attend. What recommendations do you have for curriculum and/or workshops?

Curriculum:

2nd grade

Workshops:

None

Recommendations:

Where is printable work we can use to focus on skill gaps?

Q13 Mountain Oaks is developing Tk-12 pathways to prepare students for life after high school graduation. This includes providing access to several Career and Technical Education Pathways. Please select all of the pathways your family may be interested in.

Computers/Technology,

Business and/or Self-Employment,

Construction Technology- Building Things,

Other (please specify):

How to research for and train oneself to find a career path that wasn't covered in offered curriculum, and how to find and talk to real people later who WOULD have the particular skills to help in the field the student wants to be in. e.g. know available community resources, AND know how use them fully and effectively as a springboard, AND know how to keep mind and ears and heart open to all people they can meet everyday that may help in filling a need of the student's, or better, that the student can help to fill a need for

Q14 What are the Special Events and Workshops that are most important to your family? Feel free to recommend.

Special Events:

Orientation, annual meeting

Recommendation:

Constantly remind those of us who cannot attend school group events how we can still support in any way, including donations to website

Q15 Additional comments or observations you would like to add that are not part of this survey:

I need more reminders of what I am required to do and options and consequences. We have a good environment and family and church support, but things like transportation issues, and life in general continues to throw out uncertainties. I always worry that if I miss teacher meetings my son's record with the school may suffer. I need to know that if I can't meet the mentor teacher at a scheduled time I can send in work other ways on time and how each option will affect the teacher and how I can meet in the middle so to speak, or video conference, or whatever options? THANK YOU FOR OFFERING THIS SURVEY

Q7 Our family is clear regarding goals and expectations for my student(s). **Strongly disagree,**
 Other/Comments (please specify):
 We don't set goals or expectations for our little one. We provide Materials opportunities support and encouragement.

Q8 I am familiar with and understand the paperwork, policies and procedures for managing my student's learning plan.

Neither agree nor disagree,

Other/Comments (please specify):

We don't have a learning plan that I am aware of.

Q9 Mountain Oaks provides a safe learning environment and maintains a positive school culture.

Strongly agree,

Other/Comments (please specify):

We love the positive school culture that Mountain oaks sets! However, Ca law infringes upon un/undervaccinated children's right to an education. Banning these children from campus is discrimination and sours the school culture for affected families and those still able to enter campus. Also, I would feel safer if teachers were able to protect students from threats, although I understand the need to comply with CA law in both instances.

Q10 The Mountain Oaks Governing Board, Administration and Staff are effective with the overall management and operation of the school.

Strongly agree,

Other/Comments (please specify):

I'm not sure, but I see things running smoothly.

Business and/or Self-Employment,
Construction Technology- Building Things,
Healthcare,
Child Development and Teaching,
Public Service,
Early College and Dual Enrollment,

Other (please specify):

I selected all bc I am not sure what my child will be interested in 5 years down the road.

Q14 What are the Special Events and Workshops that are most important to your family? Feel free to recommend.

Special Events:

Christmas crafts, Halloween parade, field trips.

Workshops:

Art, pottery, career pathways,

Recommendation:

It would be lovely to have a building workshop for younger age groups
