PHYSICAL EDUCATION

The Governing Board recognizes the positive benefits of physical activity on student health and academic achievement. The Board desires to provide a physical education program that supports the district's coordinated student wellness program, provides an adequate amount of moderate to vigorous physical activity, builds interest and proficiency in movement skills, and encourages students' lifelong fitness through physical activity. Besides promoting high levels of personal achievement and a positive self-image, physical education activities should teach students how to cooperate in the achievement of common goals.

The Board shall approve the components of the physical education program. The district's program shall be aligned with state model content standards and curriculum frameworks for physical education and shall provide a developmentally appropriate sequence of instruction including, at appropriate grade levels, the effects of physical activity upon dynamic health, the mechanics of body movement, aquatics, gymnastics and tumbling, individual and dual sports, rhythms and dance, team sports, and combatives such as self-defense and fencing.

The district's program shall provide equal opportunities for participation in physical education instruction regardless of gender.

An appropriate alternative activity or exemption from the physical education class shall be provided for a student with disabilities in accordance with his/her individualized education program or Section 504 accommodation plan.

Physical education staff shall appropriately adjust the amount or type of physical exercise required of students during air pollution episodes, hot weather, or other inclement conditions or as needed to accommodate individual student health needs.
(and Disaster Preparedness Plan)

The district's physical education program shall be provided by appropriately credentialed teachers. Continuing professional development shall be offered to physical education teachers and to classroom teachers serving as instructors of physical education in order to enhance the quality of instruction and the variety of activities offered.

The Superintendent or designee shall annually administer the physical fitness test designated by the State Board of Education to students in grades 5, 7, and 9. (Education Code 60800)

The Superintendent or designee shall annually report to the Board the results of the physical fitness testing for each school and applicable grade level. He/she shall also report to the Board regarding the number of instructional minutes offered in physical education for each grade level, the number of two-year and permanent exemptions granted pursuant to Education Code 51241 as described below, and any other data agreed upon by the Board and the Superintendent or designee to evaluate program quality and the effectiveness of the district's program in meeting goals for physical activity.

The Superintendent or designee shall report the aggregate results of the physical fitness testing in the annual school accountability report card required by Education Code 33126 and 35256. (Education Code 60800)
